

Book Club: January 2026 Book Review

“One Perfect Day” by Lauraine Snelling

This is a fictional story about two Christian families and their faith journey.

Two mothers who have their lives changed forever.

Two families whose lives will be the same because of events beyond their control.

One who has a daughter with a fatal heart defect and the other family their lives are changed forever as a result of a car accident.

Members of book club had mixed feelings, you either liked the book or you didn't. The author's character development was great, yet some found it difficult to follow the number of characters straight at the beginning. A box of tissue is needed throughout the book. There were mixed reviews by members. A copy will be available in the church library.
